

Here is a list of the key events from the course. Cut out the cards and divide them between the members of your group.

Working as a team, organise your cards into:

- chronological order – with the earliest event nearest the door
- significance – placed into order of how much the events helped to gain civil rights for black people, with the most significant event near the door.

Use the cards that do not have a shaded background first and be prepared to justify your opinions if asked.

**Challenge**

The shaded cards are more difficult. Can you add these cards into your lines of significance and chronology?
