

## Student Destinations at Ifield Community College

At Ifield Community College we feel it is important to do as much as we possibly can to ensure that our students have a secure future, once they leave school, at the end of Year 11, or, at the end of their post-16 education. We have a well developed programme to help students select appropriate next steps as they move forward. The outcome is a support structure which enables our students do well when compared to their counterparts nationally and within the South-East of England.

Destination measures provide clear and comparable information on the success of schools and colleges in helping their young people continue in education, employment or apprenticeships.
